

TULUS DOOR

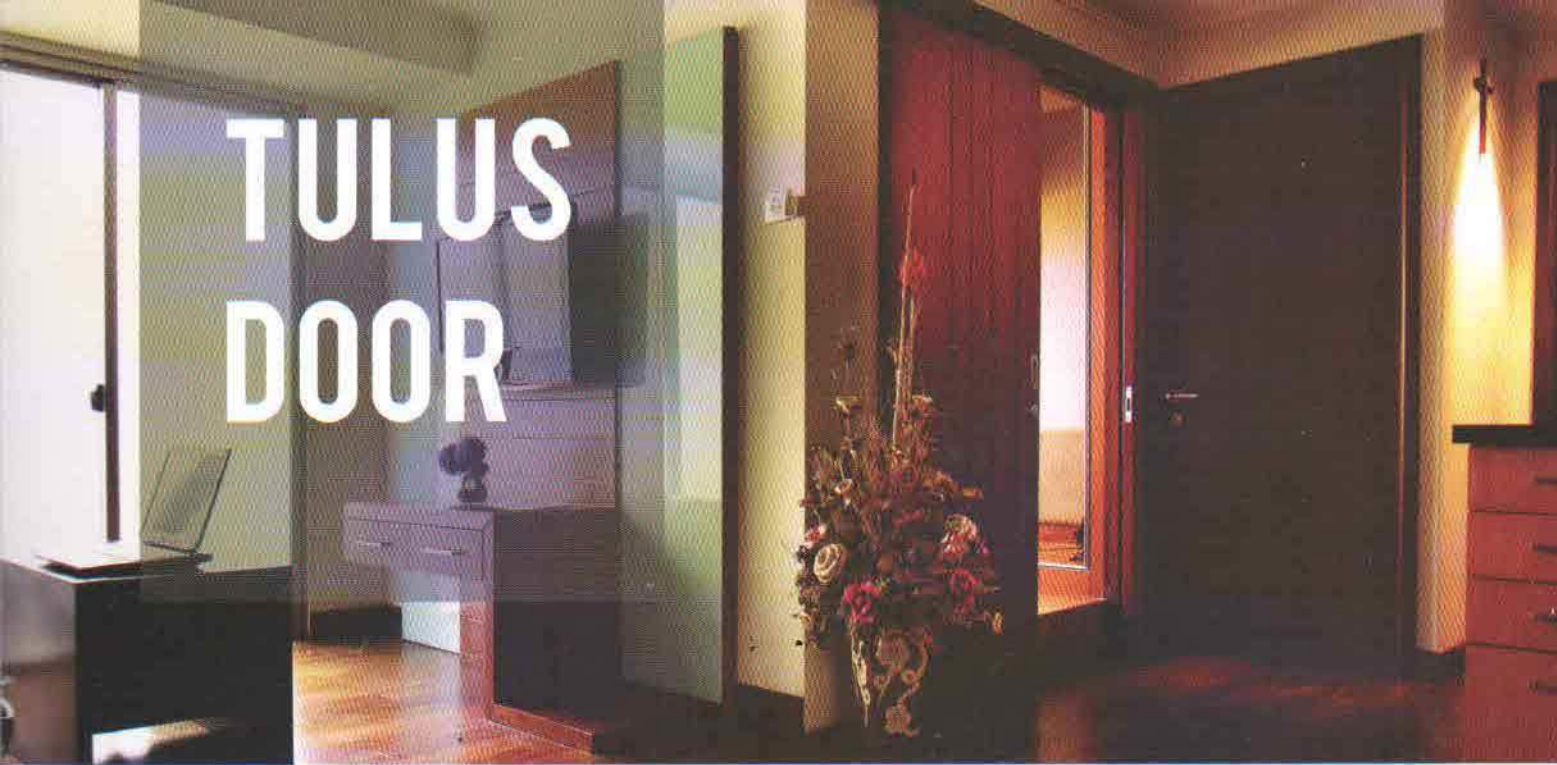

PT. TULUS TRI TUNGGAL is one of the biggest wooden door manufacturers in Indonesia. We have 30 years of experience in producing export quality Wooden Doors for domestic markets as well as overseas markets with destination to Korea, USA, UK, Japan, Singapore, United Arab Emirates, Belgium, England, Slovakia, Russian, New Zealand, Australia and other countries.

Tulus Tri Tunggal believe in preserving the Indonesian forest resources. Thus, all of our wooden products (doors, frames) are produced using engineering method. Engineered door enables us to minimize the use of wood from expensive, rare and slow growing tropical trees and maximizes the use of fast growing and easily available wood species, along with MDF (Medium Density Fiber board) and PB (Particle Board).

TULUS DOOR

PT. TULUS TRI TUNGGAL's wooden product division has a range of products that we export to various countries around the world and also distributed in the local Indonesian market under the TULUS DOOR brand . TULUS DOOR are now a dominant industry leader, our products are used in thousands of homes and hundreds of hotels, apartments and housing estate across Indonesia. A testament to the quality of our product in Indonesia, TULUS DOOR is marketed with up to 3 year warranty to prove our commitment. Our main products are engineered interior doors, panel doors, flush doors, door jamb, architrave and many more.

Our jambs and architrave designed to complete our door series to provide our customers with one set of grand design opening. Constructed using our over 35 years of experience in manufacturing engineering product, resulting our jambs and architrave to be a beautiful products, and at the same time provide our customer with a sound assurance of a stable and worry full product for their home. Either to cover the gaps between the wall and the jamb or make your opening to have a grandeur look, our architrave will never dissappoint you both in quality and in price.
